Wallpaper-Hanging Routines That Don't Sink to Slapstick

Wallpaper often seems like a good idea until it has to be hung or removed. Now a few companies are easing those practical issues. Waverly has six collections, including Urban Attitude, left, that

are easy to handle because the paste goes on the wall, not the paper. And the papers can be peeled off in one piece rather than scraped; \$32.99 to \$36.99 a roll;

waverly.com or (800) 423-5881. Chesapeake Wallcoverings has prepasted papers that are dampened with water but don't absorb it. They hang easily and can be peeled off in full sheets. Double rolls are \$68; cheswall.com or (800) 275-2037.
